4. The bank is legally required to withhold a 10% tax at source on interest earned. All rates shown above are effective and nominal in EUR. The bank does not offer savings accounts in USD. For existing savings accounts in this currency, no interest is calculated on deposited funds. For existing clients who have only an EUR savings account, the interest rate on deposited funds is 0.10%. The interest earned is credited to the savings account annually.

5. The Bank provides time deposits over the amount of 10,000 EUR. The interest rate for deposits with automatic renewal of maturity (1,3,6,9,15,18,48,60 month) which are no longer offered, is 0,01% effective from 1 December 2017.

6. In case of closing the time deposit before maturity, the principal of the deposit is not touched under any circumstance.

7. These are standard limits that may be changed via m-banking and in cases when limits specified in this table are not applicable.

8. All commissions for cards and card limits are valid for the digital wallet too.

9. When withdrawing funds from ATMs abroad, in addition to the ProCredit bank tariffs, additional commissions may be applied by the banks or institutions that provide the service.

10. Based on the Regulation for the Usury of Loan Instruments, CBK published on regular six-month basis data on the reference rate as part of the usury. Find the reference rate in the following link: <https://bqk-kos.org/financial-supervision-2/banking-supervision-2/late-payment-on-credit-instruments/?lang=en>

The formula to calculate late payment:

The principal of usury x usury x number of late days) Example:

(500 Eur x 0.033% x 4 late days) = 0.66 Eur

If the client pays during the first three days after being late then the penalty shall not be calculated.

If the client is late for more than 3 days the penalty shall be calculated for the entire period the client was late.

11. The return of the online payment is excluded from this tariff.

12. Includes the 'P2P Debit' transactions.

13. This commission is not applied for foreign cards issued by the ProCredit bank network, transactions that will be processed by the Quipu Processing Centre (QPC).

14. Applicable only for cards issued outside of Kosovo in a currency other than the Euro.

\* In cases where the investment in immovable property is carried out abroad, an additional 1.50% on top of the base interest rate shall apply. Furthermore, it should be noted that clients from the diaspora, if they wish to invest in immovable property abroad, may do so only through partners with whom the Bank has concluded cooperation agreements (currently only in Albania).

## Prepayment Provision

- For loans with a combined interest rate (fixed + variable), the commission shall be applied as follows:
  - 1% of the prepaid principal amount – applicable only if the loan prepayment is made during the fixed interest rate period and the remaining loan maturity is longer than 1 year.
  - 0.5% of the prepaid principal amount – applicable only if the loan prepayment is made during the fixed interest rate period and the remaining loan maturity is less than 1 year.
  - 0% commission (no commission) – applicable when the loan prepayment is made during the variable interest rate period.
- For loans with a variable interest rate, no prepayment fee shall apply.
- For loans with a fixed interest rate, the following shall apply:
  - If the period between the prepayment of the loan and the time of its regular maturity is over a year, you will pay the unpaid principal as well as 1% of this principal.
  - If the period between the prepayment of the loan and the time of its regular maturity is less than a year, you will pay the unpaid principal as well as 0.5% of this principal.
- For Residential mortgage loans, a prepayment fee is applied according to the following rule:
  - If the borrower submits a request for loan closure in the first year, five percent (5%) of the principal amount.
  - If the borrower submits a request for loan closure in the second year second, four percent (4%) of the principal amount.
  - If the borrower submits a request for loan closure in the third year, three percent (3%) of the principal amount.
  - If the borrower submits a request for loan closure in the fourth year, two percent (2%) of the principal amount.
  - If the borrower submits a request for loan closure in the fifth year, one percent (1%) of the principal amount.
  - No penalty fee will be charged after the fifth year.
- Loan prepayment provision applies to mortgage loans according to the terms specified in the relevant loan contract.

## Additional information about loan services

1. As of March 10, 2017, the Bank no longer offers loans with a variable interest rate that is based on the WAIR index, an index calculated based on the weighted average annual interest rate of the Bank's term deposits. The bank will continue to publish here: <https://www.procreditbank-kos.com/shq/rreth-nesh/publkimet-financiare/indeksi-wair/> the reference rate of the WAIR index (Weighted Average Interest Rate) until the settlement of the last loan that uses this index.
2. The effective interest rate is calculated in accordance with the guidelines of the regulation on the effective interest rate and disclosure requirements, issued by the Central Bank. For the calculation of the EIR, the nominal rate for the fixed period, the maximum administrative costs, and the maximum duration have been taken into account. Meanwhile, possible changes that may appear are a consequence of the date taken as the starting point for the calculation and consequently this guides the inclusion/non-inclusion of the leap year in the loan duration.
3. For the calculation of the effective interest rate (EIR) of credit exposures covered by cash, the WAIR index of term accounts for December 2025, respectively 3.23% is taken into account and 1.50% nominal interest rate for this product is added to it, as well as the maximum maturity of investment loans. For the calculation of the effective interest rate (NEI) of EC Loan credit exposures, the nominal rate for the fixed period of investment loans (minus 0.30% as a result of the ECO investment), the maximum administrative expenses and the maximum maturity for these loans are taken into account.
4. Property valuation fees vary depending on the type of property being valued and are paid by the loan applicant. For more information, contact the bank.
5. EURIBOR is the abbreviation for the Euro Interbank Offered Rate and refers to the interest rate based on the supply and demand for money in the European market as well as on the daily quotes sent by the largest European banks. When clients take loans with a variable interest rate linked to Euribor, they should bear in mind the possible changes in Euribor, which ProCredit Bank applies every six months for the duration of the loan.
6. Based on the Regulation on Default Interest for Credit Instruments, the CBK publishes, on a regular six-month basis, data on the reference rate as part of the default interest. Find the reference rate at the following link: <https://bqk-kos.org/mbikeqyrja-financiare/mbikeqyrja-bankare/kamatevonesat-ne-instrumentet-kreditore/>  
Formula for calculating the late payment: Outstanding principal × daily default interest × number of days in delay Example: (500 EUR × 0.033% × 4 days in delay) = 0.66 EUR If the client pays within the first three days after being in delay, no penalty will be calculated. If the client is in delay for more than 3 days, the penalty will be calculated for the entire period during which the client has been in delay.

27. Apart from the utilized principal and interest for the days used, the bank does not apply additional reserve early repayment of overdraft.
